Story:

Tyson is Rupert Merriweather's star pupil and graduate assistant. He is a history major at Miskatonic University, in Arkham, Massachusetts.

Tyson is a very bright young man, but seems to know more about dealing with information and ideas than with people. His curiosity has taken him far, and he sees it as a strength—though, one day, it may take him down roads from which he can never return.

Rupert's wife, Agnes, has called young Tyson and told him that Rupert, who is ailing at St. Mary's hospital, has asked to meet him at 1:00 pm on Thursday. Tyson has no idea why his mentor wishes to meet with him.

Stunts:

I've Read About That! (Scholar): You've read hundreds—if not thousands—of books on a wide variety of topics. You can spend a fate point to use Lore in place of any other skill for one roll or exchange, provided you can justify having read about the action you're attempting.

Power of Deduction (Investigate): Once per scene you can spend a fate point (and a few minutes of observation) to make a special Investigate roll representing your potent deductive faculties. For each shift you make on this roll you discover or create an aspect, on either the scene or the target of your observations, though you may only invoke one of them for free.

Strength from Determination (Will): Use Will instead of Physique on any overcome rolls representing feats of strength.
